The Wood-Gas Controversy. A RATHER sharp but distant firing is carried on by some persons interested in wood-Gas Patents; and we perceive that the moke of their canson has somewhat obscured their vision. Dr. C. G. Page, as the attorney for W. P. McConnell, having presented his claims through our columns, L. R. Breisach, of this city, has presented those of Pettenkofer & Ruland, or Bavaria—he being their assignee—through the columns of the Daily Times of the 3d instant. He states that the first potent for the Bavarian inven-tion was issued on February 24, 1851, an authen-ticated copy of which has been filed in our Patent Office; also, that the claims of his assignors were filed in the office, to protect their rights, more than a year ago. As no patent can be obtained for making or using Wood-Gas, the disputed point relates to the apparatus, which embraces the reheating of the gas—passing it over a red-hot surface in its way to the cooler—after it is generated; this is clearly stated in Dr. Page's page 50. Now, as McConnell claims to have nvented the apparatus for reheating Wood-Gas as far back as 1849-two years previous to the granting of the Bavarian patent- and as he obtained a patent for the same, on the 26th day of September last, although contested by Pettenko September last, although contested by retained for & Ruland, we cannot well conceive who L. R. Breisach wants to frighten, by declaring, through the columns of the Times, that he will prosecute the violators of the Bavarian invention. He gives his notice to all who take an interest in the introduction of this invention, but, in doing so, he for got to present any fact upon which the public can rely, to show what patent rights he possesses. When he again writes to inform the public that he has certain patent rights, and will prosecure these who infringe them, we hope he will be so good as to state what these rights are, so that the public nay know what he means .- Secentific American.

PROSPECTUS OF THE

NORTH CAROLINA STATESMAN. THE undersigned propose, on the first day of January next, at Raleigh, North Carolina, to begin the publication of the North Carolina Statesman, a semi-weekly and weekly paper, devoted to politics, news, and miscellaneous subjects, and respectfully solicit for it a share of the patronage of the dayners in party their friends, and the of the democratic party, their friends, and the

Invited by many leading persons of the State rights republican party to propagate and defend principles which we have always held, and regard as the only basis of prosperity in our form of gov-ernment, and inspired with a sincere desire to serve that party and advance its interests, we proserve that party and advance its interests, we propose to issue a paper at the seat of the State government. In the field of editorial enterprise, there is ample room for those who are now holding position, as well as for others, who choose to enter into fair competition. The propagation of the principles of our party is a duty at once important, and to us peculiarly agreeable. The attractions of the editorial profession and its honorable toils, together with a desire to extend its influence, has had much weight in the decision which we have made—a profession at once dignified and elevated, where the highest intellectual gifts may figd full employment, and the purest patriotism find full employment, and the purest patriotism make contribution to the public weal. We are persuaded that a journal, conducted with fairness and discretion—uninfluenced by selfishness and devoted to principle, may secure sufficient patronage, without interfering with the claims or rights

any now presecuting the same great work. Although mainly deveted to the discussion of such political questions, as they arise, which affect the welfare of North Carolina, whether relating to the federal or State governments, or such local in-terests as may be of importance, it is nevertheless intended to make the Statesman a medium of ge-neral intelligence. Accordingly, the state of the markets in the principal cities, to which our com-merce goes, shall be fully and accurately reported; nor will the attention of the conductors be less addressed to the subject of internal improvements, as a means indispensable to the development of the mineral and agricultural resources of the State. These interests, of primary importance, shall always command their fullest attention. To this they propose to add carefully selected and origina iterary matter. Being strictly conservative, the propose to avail themselves of all the lights of perience, in that progress, which promises the ad-vancement of the interests of North Carolina. The general objects of the proposed paper be has clearly indicated, it may not be amiss brie

to state the particular views which are to be sue ed by it as a political journal. 1st. Our purpose being to publish a paper purely de nocratic, according to the straightest requirements of that party, we shall advocate strict party organi zation in its fullest and most comprehensive sense an organization which originates in the popula will, expressed by the people in their primary as semblies, and which has been so successfully in sembles, and which has been so successfully in-troduced among the democracy of many of the other States, by which the rank and file of the party are, in fact, those who indicate its decisions, and, being all brought into action, express their will imperatively; thus, by open and fair dealing, commanding respect and obedience; an organiza-tion of the people, and not of intriguers; restoring power to those who, by sufferance, have tolerated its temporary usuroation.

s temporary usurpation.

2d. The democratic party shall always find in u 2d. The democratic party shall always find in us advocates of their right to select their standard bearers, and to command acquiescence in decisions made by conventions fairly elected in their primary meetings. Standing upon the good eld State rights platform of '98, we shall oppose government corporations created by Congress for the purpose of internal improvement, the regulation of finance, and other measure inconsistent with the rights. or any other measure inconsistent with the right

3d. Believing that the platform adopted by the late Baltimore convention contains the democratic creed, they expect cordially to sustain the present dministration, trusting that the policy adopted by those who compose it will be regulated by the cardinal doctrines of the American democracy. 4th. They will advocate all such measures of internal improvement as promise by judicious prose-cution to promote the interests of the people and diffuse the beachts of a system already enjoyed by

portions of the State.

5th. The disposition of the public lands being uestion of the most absorbing interest, we be-ieve it should be at once met and settled. The unjust and unequal legislation of Congress, in re-lation to those lands, and the large and frequent appropriations made to the new States, indicate a final departure from the old and wise policy of ap-propriating the proceeds of their sales to the pay-ment of the public debt, and the expenses of the government. It has for some time ceased to be either a subject of home or expectation the government. It has for some time ceased to be either a subject of hope or expectation that there will ever be a return to a policy which had so much to recommend it. Believing that this system of squandering and prodigality is not only to continue but to grow worse, we shall pretest against it, and assert the right of the old States to their equitable share of the lands which remain. The power "to dispose of the public lands being explicitly declared in the Constitution, the exercise of that power is a question of policy, both as to the time and the mode." Believing, as we do that it has become the settled pelicy of Congress to squander the public lands, we adopt the patriotic language of Mr. Dobbin, and say that "all of North Carolina's sons, both whigs and democrats, should protest, and demand North Caro-

crais, should protest, and demand North Carolina's share of the public domain." 6th. Approving of the sentiments of the inaugural of the President, we shall oppose the acquisi tion of Cuba or any other foreign territory, unless such acquisition be in accordance with existing treaties, and entirely consistent with the national

DR. MORSE'S INVIGORATING CORDIAL,
Phenomenon in Medicine.—Health Restored and Life Lengthened, by Dr. Morse's Invigorating Elixir or Cordial.

A T first the properties attributed to Professor Morse's Invigorating Elixir or Cordial were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer. But facts, undeniable facts, attested by witnesses of the highest class and character, are now triumphing overall doubts. and character, are now triumphing over all doubts

Incredulity is overthrough by a mass of testimo The Elixir remedies in all cases the deplorable evils arising from a misuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate func-tion connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicat-ing that energy which is necessary to the proper enjoyment of all the natural appetites, as well as the higher mental attributes. Its beneficial effects ere not confined to either sex or to any age. The feeble girl, the siling wife, the listless, enervated youth, the over-worn man of business, the victim youth the over-worn man of business, the victim of nervous depre-sion, the individual suffering from general debility, or from the weakness of a single organ, will all find immediate and perma-nent relief from the use of this incomparable renovator. To those who have a predisposition to parelysis, it will prove a complete and unfailing safeguard against that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despain The Elixir deals with disease as it coust, without reference to causes, and will not only remove the disorder itself, but

The derangements of the system, leading to nervous diseases, and the forms of nervous dis-case itself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, headache, incipient paralysis, hysteria, palpitation of the heart, spinal affections, muscular debility, tremors, flatulence, a pricking sensation in the flesh, numbness, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep, and territying dreams, inability to remain in one place. terrifying dreams, inability to remain in one place or position, weaking of the procreative organs sexual incompetency, melancholy, monomania fluor albus, sinking at the stomach, female irre-gularities, a chronic tendency to miscarriage. emaciation, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond

CURE OF NERVOUS DISEASES. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the diseased, debilitated, and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sick ness, the unstrung and relaxed organization is at once braced, revivified, and built up. The mental and physical symptoms of nervous disease vanish and physical symptoms of nervous disease vanish together under its influence. Nor is the effect temporary; on the contrary, the relief is perma-nent, for the cordial properties of the medicine reach the constitution itself, and restore it to its ormal condition. Well may the preparation be

have no existence.
A STIMULANT THAT ENTAILS NO RE ACTION.

Its force is never expanded, as is the case with opium, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes them: "the last state of that man is worse than the first." But the Elixir is an man is worse than the first." But the Elixir is an exhilarant without a single drawback—safe in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a tendency to biush, sieeplessness, dislike of society, incapacity for study or business.
